

The CMC Partnership & Buying Solutions

The **CMC Partnership** is a consortium of UK companies specialising in the design, delivery and support of complex business change in the public sector. The services of The CMC Partnership are now available through the **Buying Solutions Management Consultancy and Accounting Services framework agreement**.

The consortium combines the advantages of the larger consultancies:

- Flexibility and breadth of expertise
- Scale and scope of consultancy
- Accumulated learning, established tools and techniques.

with the advantages of smaller consultancies:

- Specific dedication to niche expertise
- Personal approach to customer service
- Innovative and tailored solutions
- Low consultancy costs.

The members of The CMC Partnership consortium have a shared attitude - that in working for the public sector, we must deliver **responsibly, transfer skills and knowledge** and offer **value for money** in everything we do.

Using Buying Solutions

Buying Solutions, part of the Treasury, aims to maximise value for money for public sector procurers. The Management Consultancy & Accounting Services Framework Agreement (MCAS) can be used by any public sector organisation, from the smallest school to the largest government department. Using Buying Solutions makes procurement of **competitively priced** services **easier and quicker**, while being **fully compliant** with all government regulations.

Competitively Priced – Buying Solutions benchmarking ensures that suppliers offer their lowest rates through their frameworks.

Easier – order through Buying Solutions partners with step by step support from the website. Terms and Conditions are in place, negotiated by experts to provide customers with contractual safeguards.

Quicker – OJEU pre-qualification has already taken place, enabling rapid movement from identification of business need to delivery.

Fully compliant – Buying Solutions' rigorous pre-qualification process ensures that suppliers conform to all statutory and legislative requirements.

There are no **financial limits** on the size of orders customers can place through Buying Solutions and the requirement definition and choice of procurement category is for the procurer to decide.

Further information on Buying Solutions can be found on their website:
